

## **SECOND EDITION**

# **GENEALOGIES OF THE EARLY SETTLERS OF WESTON, VERMONT**

**In celebration of the 200<sup>th</sup> year of the founding of Weston, Vermont, the Weston Historical Society published 100 copies of a genealogical compendium of the early settlers of Weston. The book expanded on the basic research completed by Raymond Taylor (1888-1974) by adding all birth, marriage and death records for 1800-1900 on file at the town hall.**

**The first printing was sold out quickly and prompted many interested parties to come forward with additional information. Other informational sources also became available including: enumerated census data from 1850 through 1930 and expanded internet sites: FamilySearch.org, Ancestry.com, and the New England Historic Genealogical Society. Extensive visits to neighboring town halls, cemeteries and libraries helped to identify families who had moved on. Census data helped to identify and trace those families who migrated west in the 1850's.**

**Genealogical research can be tricky and information can be difficult to verify. Our concept was to recognize that there may be errors in publicly available information but, stay the road and hopefully steer interested parties in the right direction.**

**Our thanks go to non-local Weston descendants who have assisted greatly in this project: Wendy deGeoffroy, C. G. "Pete" Davis, Jr., Maureen Cline, Lillian Henry and Ann Carter Dennis among many others.**

**This Second Edition (book or computer disc) can be ordered by mail. Send your check to The Weston Historical Society for \$30.**

# **GENEALOGIES OF THE EARLY SETTLERS OF WESTON, VERMONT**

**The Weston Historical Society  
P O Box 247, Weston, Vermont, 05161**

Between 1916 and 1974, Raymond A. Taylor compiled the genealogies of seventy-five Weston families. The Weston Historical Society, in celebration of Weston's 200<sup>th</sup> Anniversary, has transcribed Taylor's original work and supplemented it with birth, marriage and death data as recorded in the Town Hall for the first 100 years (1800-1900). The project has been expanded to include the ancestors of Weston's original residents as well as descending family groupings in so far as they are still connected to the village.

Resource data for the project went beyond town records to include the 1850, 1860 census, vital records from neighboring towns, Internet genealogical sites, cemetery records, family bibles in the Farrar Mansur Museum collection, and various gazetteers and directories. References by surname and initial codes are listed in an appendix at the end of the book. Dates in parentheses are calculated from census or other data.

The material is organized alphabetically by family surname. As a generation is carried forward, it is indicated by an asterisk (\*). An asterisk by a female child indicates that one should then turn to her indicated husband. Vital record references volume and page appear as (2:55) when known.

This project could never have been completed without the encouragement, assistance and research efforts of Karl Pfister of Landgrove, Ginny (Gabert) Blanchard and Peter Farrar of Andover, Jonathan Stevens of Chester, Shirley Twitchell of Londonderry, Rebecca Tucker of Ludlow, Linda Welch of Cavendish, Sandy Goodwin and Dr. Elizabeth Lawder of Weston, Joyce Barbieri of Wallingford, Randy Holmes of Windsor.

The Weston Historical Society is proud to offer this document to facilitate genealogical research of the town's forebears. It can be ordered by mail by sending a check for \$30 to The Weston Historical Society at the above address. We welcome inquiries and encourage the sharing of information.
